

WELCOME TO THE WORLD OF BLUTIZER®

*Total hygiene solutions
Clean without a doubt*

Hand Sanitizers provide a quick and easy solution when soap and water are not available or practical. Hand sanitizers disinfect and kill harmful viruses and bacteria that exists all around.

Ethanol, isopropanol and n-propanol are the most common alcohol-based hand sanitizer active ingredients that can promote a healthier lifestyle. Choose from our wide selection of Gel and Liquid Hand Sanitizers, Antiseptic Wipes, many with scent and moisturizing agents as well.

Skin compatible formulations

Our formulations are developed to minimize skin irritation so they can be used, as many times as needed. This, encourages hand hygiene compliance and helps reduce occupational illnesses that could otherwise result in sick leave.

- + Dermatologically tested
- + pH-balanced formulations
- + Formulations enriched with skin conditioning emollients to keep skin soft and protect against irritation

BLUTIZER® is an FDA Approved product. We always follow and apply the Sanitizing Monograms for the best solutions.

BLUTIZER® HAND SANITIZER

User-friendly ingredients

Gel-based hand sanitizers contain alcohol that naturally makes the skin dry, requiring sanitizer companies to add moisturizers as an ingredient to protect the skin. Moisturized sanitizers eliminate germs while still being gentle on users' hands. The gels contain at least 60 percent alcohol, so a small amount is sufficient to kill germs. Some gel hand sanitizers have vitamin E and plant-based oils to help keep the hands moisturized and enriched. Some have a mild formula and a blend of four moisturizers, making them ideal for frequent use.

MOST OF OUR PRODUCTS CONTAIN THE RECOMMENDED FORMULAS OF;

- World Health Organization (WHO)
- Food and Drug Administration (FDA)
- United States Pharmacopeia (USP)

ALCOHOL

The alcohol helps to melt the oil structure of viruses. Most of our formulas contain %70 - %80 volumed Ethyl and Isopropyl Alcohol blends.

HYDROGEN PEROXIDE

Hydrogen Peroxide included formulas disinfect all surfaces in one easy step. Our most formulas contain this ingredient.

GLYCERIN

Glycerin helps to protect your skin from irritations. This is a "sine qua non" of the BLUTIZER®.

BLUTIZER® HAND SANITIZER GEL

GEL HAND SANITISER

Gel hand sanitizers are hand cleaning gels that do not require the use of water. They have antimicrobial properties that eliminate germs quickly. The formula not only removes dirt, but it kills germs, making hands safe to use in the absence of clean water. Blutizer offers a variety of gel-based hand sanitizers with different ingredients. The formula is dye-free with a reduced fragrance for sensitive skin.

Liquid hand sanitizers come in various sizes, from as small as 1-ounce bottles, convenient for pockets, handbags, backpacks, and diaper bags, to large 8-ounce bottles. The latter serve multiple users in high-traffic areas such as staff bathroom, cafeterias, hallways, and meeting rooms. Large facilities, such as hospitals and schools, can mount refillable dispensers onto their walls and purchase 1-gallon bottles of the product.

BLUTIZER®

SINGLE USE WET WIPES

(Single-use (disposable) Sterile Wet Wipes)

Hand sanitizer wipes provide a great solution to cleaning dirty hands when there is no soap and water available. Especially for the restaurants (both for pick-up and delivery services), stores and shopping malls, or only in the bags for personal uses in anytime and anywhere.

- * Wet wipe sizes can change up to your need. We have sizes between 5x5 cm – 10x15 cm.
- * Also, you can increase the amount of antiseptic inside.
- * We can inject the solutions inside, from 1 mL to 10 mL per single pack.
- * Depending on liquid solution's amount, the wipe's size and volume increases.

Large Pack Antiseptic Wet Wipes

Hand Sanitizer Wipes Are Soft on the Skin
Cleansing hand sanitizer wipes provide effective sanitizing agents and act as an abrasive, removing germs and dirt from the skin in seconds. Broad-spectrum formulas act against a range of contaminants, which decreases the bacteria count on hands while remaining soft on the skin. The active ingredient in sanitizing wipes varies by brand, but the majority include either ethyl alcohol or benzethonium chloride, both of which are powerful antibacterial agents. Wipes are often hypoallergenic and enriched with aloe vera to soothe and moisturize the skin. Wipes are not sticky and will not leave any residue on hands, making them ideal for on-the-go use in a fast-paced environment.

72 pcs. Sanitizing Wet Wipes

All packages can be design for your own brand and logo.

- ! Pack sizes can change up to your need. We have sizes between 2,5x5 cm – 10x15 cm.

BLUTIZER®

SINGLE USE GELS

BLUTIZER®

HAND SANITIZER GEL

Waterless hand sanitizer formulated to promote skin health and reduce the spread of infections. Contains moisturizers to condition and protect the skin and contains 70% ethyl alcohol to provide fast, proven antimicrobial efficacy against a wide range of microorganisms. The formula is dye-free with a reduced fragrance for sensitive skin.

- + You can increase the amount of antiseptic inside.
- + We can inject the solutions inside, from 3mL to 8 mL per single pack.
- + Depending on liquid solution's amount, the packet size and volume increases.

Put your business behind the health and safety of your customers with Antibacterial Hand Sanitizer Single Use Gels, customized with your logo in the color of your choice. These single-use packets contain at least 70% alcohol-based hand sanitizer. Stash them in a pocket or purse for an emergency cleaning when a sink for hand washing is not available. An imprint with up to 4 colors is included in the price.

The compact, durable packaging allows for maximum convenience and portability, and is great for wallets, backpacks, diaper bags, pockets and more

BLUTIZER® TOUCH SERIES

Blutizer Touch Series contains "Certified Organic Essential Oils". We do not use fragrances and regular essences. All Touch Series can be found in gel and liquid dosage forms.

BLUTIZER® Touch Aloe Vera: Aloe Vera has been an integral part of beauty regimens across cultures since millennia. According to recent research and ancient texts, aloe vera oil is a skin and hair care specialist. It gives you young, soft, clear skin. Topically applying aloe oil heals cuts and prevents mosquito bites.

BLUTIZER® Touch Bergamot: Bergamot is the most delicate of the citrus plants, requiring special climate and soil in order to thrive. Italians have used Bergamot for years to reduce feelings of stress and to soothe and rejuvenate skin. Bergamot is unique among citrus oils due to its ability to be both uplifting and calming, making it ideal to help with anxious and sad feelings. It is also purifying and cleansing for the skin while having a calming effect.

BLUTIZER® Touch Tea Tree: The leaves of the Melaleuca Tree (Tea Tree) have been used by the Aboriginal peoples of Australia for centuries. They would apply crushed leaves directly to the skin for a cooling effect. Melaleuca is best known for its purifying properties. It can be used to cleanse and purify the skin and nails and to support a healthy complexion. Taken internally, Melaleuca promotes healthy immune function. Melaleuca is frequently used on occasional skin irritations to soothe the skin and diffusing Melaleuca will help purify and freshen the air.

BLUTIZER® Touch Cinnamon: Extracted from bark, Cinnamon oil supports healthy metabolic function and helps maintain a healthy immune system when needed most.

BLUTIZER® Touch Lavender: Lavender has been used and cherished for centuries for its unmistakable aroma and myriad benefits. In ancient times, the Egyptians and Romans used Lavender for bathing, relaxation, cooking, and as a perfume. Its calming and relaxing qualities, when taken internally, continue to be Lavender's most notable attributes. Applied topically, Lavender is frequently used to reduce the appearance of skin imperfections. Add a few drops of Lavender to pillows, bedding, or bottoms of feet to relax and prepare for a restful night's sleep..

BLUTIZER® Touch Eucalyptus: The main chemical components of Eucalyptus radiata are eucalyptol and alpha-terpineol, making it an ideal oil to promote feelings of clear breathing and open airways and for creating a soothing massage experience. Eucalyptus has purifying properties that can be beneficial for the skin and for cleansing surfaces and the air. Studies have shown that Eucalyptus is effective in helping lessen tension.

BLUTIZER® Touch Ylang-Ylang: Ylang Ylang essential oil is derived from the star-shaped flowers of the tropical Ylang Ylang tree and is used extensively in making perfumes and in aromatherapy. Similar to Jasmine, Ylang Ylang has been used for centuries in religious and wedding ceremonies. In aromatherapy, Ylang Ylang is used to lessen tension and stress and to promote a positive outlook. Ylang Ylang is frequently used in luxurious hair and skin products for its scent and nourishing and protective properties.
